Model Context Protocol

Richard Chirino

Wat

Geef je modellen context

- Open protocol
- Context voor LLM's
- Krijg het juiste antwoord, ongeacht de client*

* In de praktijk valt dit soms tegen

Waarom Models kunnen niet alles

R

wat voor weer wordt het morgen?

Ik kan je helaas geen weersvoorspelling geven omdat ik geen toegang heb tot actuele weerdata of real-time informatie. Mijn kennis is beperkt tot januari 2025 en ik kan geen huidige weersomstandigheden of voorspellingen opzoeken.

Voor een betrouwbare weersvoorspelling voor morgen zou ik je aanraden om:

- Een weerapp te checken zoals Buienradar, WeatherPro of de standaard weer-app op je telefoon
- De website van het KNMI (knmi.nl) te bezoeken
- Een weersvoorspelling op het nieuws te bekijken

Deze bronnen geven je actuele en nauwkeurige informatie over het verwachte weer voor morgen in jouw gebied.

Samenwerking

- Specifieke verzoeken
- De kracht van LLM's om te interpreteren
- Veel context sneller verwerken
- Doorvragen
- Brug met oudere software
- AI fungeert steeds vaker als interface

R

What will the weather be like tomorrow?

I'd be happy to help you with the weather forecast! To get accurate weather information for tomorrow, I'll need to know your location first.

| Get Current Location

Now let me get the weather forecast for your location:

| Get Daily Forecast

Based on your location in the Netherlands, here's what to expect for tomorrow (Thursday, September 25th):

Tomorrow's Weather:

- **Condition:** Windy
- **High:** 16°C (61°F)
- **Low:** 8°C (46°F)
- **Precipitation:** No rain expected (0% chance)
- **Wind:** Moderate to strong winds at about 22 km/h (14 mph)
- **UV Index:** 3 (moderate)

It looks like it will be a breezy but dry day with mild temperatures. You might want to dress in layers since there's quite a range between the morning low and afternoon high, and consider how the wind might affect your comfort level if you're spending time outdoors.

 get the incidents

I'll retrieve the current incidents for you.

 Get the incidents

Here are the current incidents:

Total incidents: 2 Active incidents: 0 (All incidents are resolved)

Recent Incidents:

- Mitel CCC (Contact Center Client): beperkt beschikbaar**
 - ID: 737
 - Status: Resolved (Opgelost)
 - Created: September 23, 2025 at 16:25
 - Last updated: September 23, 2025 at 17:10
- Cloud Werkplek: beperkt beschikbaar**
 - ID: 736
 - Status: Resolved (Opgelost)
 - Created: September 16, 2025 at 11:08
 - Last updated: September 23, 2025 at 12:05

Good news - there are currently no active incidents! Both recent incidents have been resolved. The most recent incident was with the Mitel Contact Center Client which had limited availability but was resolved within about 45 minutes yesterday.

Would you like me to get more detailed information about either of these incidents? Just let me know the incident ID (737 or 736) and I can provide additional details.

 get the announcements

I'll retrieve the current announcements for you.

 Get the announcements

Here are the current announcements:

Available Announcements:

- Samsung Security Update (September 1, 2025)**
 - ID: 735
 - Title: Belangrijk: Update naar de laatste Samsung Security Maintenance Release (SMR): Beveiligings patch: 1 september 2025
 - Created: September 16, 2025 at 10:58
 - Last updated: September 16, 2025 at 10:58
- Teams Startup Issues**
 - ID: 729
 - Title: Opstart problemen met Teams
 - Created: September 2, 2025 at 16:17
 - Last updated: September 4, 2025 at 10:25
- Cloud Workspace Password Changes**
 - ID: 727
 - Title: Je Cloud werkplek wachtwoord wijzigen zonder tussenkomst van de DICTU Servicedesk
 - Created: August 29, 2025 at 8:35
 - Last updated: August 29, 2025 at 10:18
- iOS/iPadOS 18.6.2 Update**
 - ID: 724
 - Title: Update nu naar iOS/iPadOS 18.6.2 voor iPhones en iPads
 - Created: August 25, 2025 at 15:50
 - Last updated: August 25, 2025 at 15:50

Important Security Updates:

- There's a Samsung security patch from September 1, 2025 that should be installed
- iOS/iPadOS devices should be updated to version 18.6.2

For the iOS update, I can provide you with detailed installation guides in either English or Dutch if you need them. Would you like me to fetch those guides, or would you like more detailed information about any specific announcement? Just let me know the announcement ID (735, 729, 727, or 724).

CURSOR

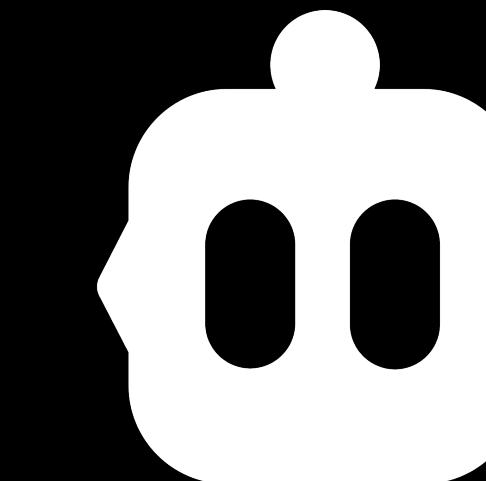

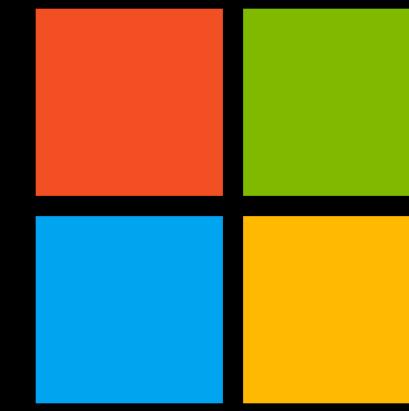

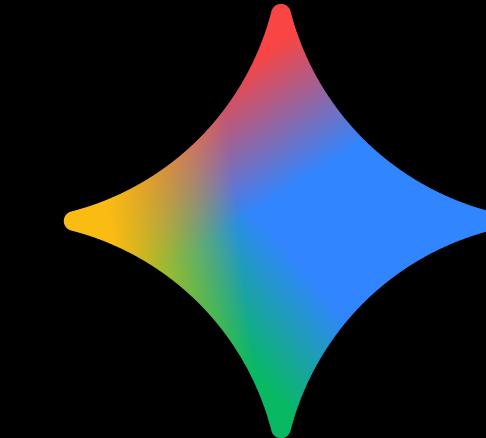

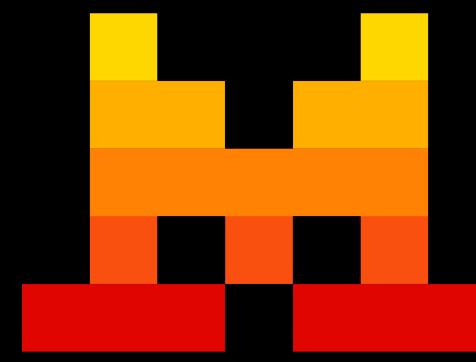

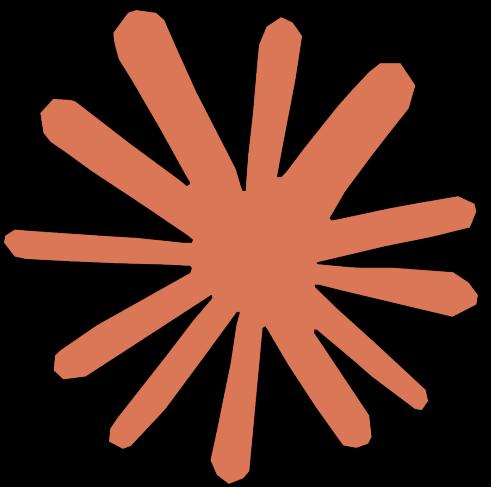

Clients

A screenshot of the Raycast application interface. At the top, there is a search bar with the placeholder text "Ask follow-up...". Below the search bar, a command card is visible with the text "@ gma-mcp ⏪ get the incidents" and a green checkmark icon. The main content area is titled "Current Incidents Summary" and contains a table with five columns: Incident Description, ID, Status, Created, and Last Updated. There are two rows of data in the table.

Incident Description	ID	Status	Created	Last Updated
Samenwerkingsruimte: niet beschikbaar	722	Opgelost	21 August 2025 at 10:33	21 August 2025 at 15:05
MijnRVO: beperkt beschikbaar	721	Opgelost	21 August 2025 at 10:04	21 August 2025 at 12:42

At the bottom of the interface, there are several icons: a microphone icon labeled "Quick AI", a "Paste Response to Xcode" button, and other standard Mac OS X keyboard shortcut keys like ⌘, ⌘K, and ⌘V.
